Art in Europe is now more diverse and stimulating than ever before, and the dynamics are excitingly represented by artists in London. In 2006, it is particularly important that Korea and Britain commemorate their cultural exchanges by presenting Korean artists in London. Moreover, it is sponsored by LG Electronics UK which is renowned as art patron internationally. This group show provides a great opportunity for emerging and established Korean artists to present themselves on an international platform at a time when Asian art is increasingly acknowledged in Europe.

**Still Dynamics** signifies the unlimited creative energy and composure of Korean artists working in Britain, in all their diversity.

The eleven artists include; Seunghee Kang, Yujin Kang, Chulwon Kwak, Kira Kim, Hyung Guan Kim, Sangjun Roh, Sen Chung, Sea Hyun Lee, Joonhyung Lee, Francesca Cho, Ji Seock Han.

**Main Sponsor: LG Electronics, UK**
